

MOTOR VEHICLE AGENCY INTERFACE EXPERIENCE FORM

Use this form to describe capabilities and features utilized, experience gained and effectiveness demonstrated with Motor Vehicle Agency interfaces within the last five (5) years. One (1) additional page per question may be attached if needed to fully describe the capabilities, features, experience and demonstrated effectiveness.

1. On a separate page list the specific Motor Vehicle Agencies with whom you have interfaced to retrieve and process registrant data, the specific cities or entities requiring this interface, the time frames (dates: from / / to / / and the duration (total number of years) of involvement and the volume and frequency of transactions. A description of the respective critical data elements should be provided. What type of information do you request from the Motor Vehicle Agencies and what data do they actually provide?

Responses may be in paragraph, chart, matrix or graph form.

2. Describe your motor vehicle agency interface to retrieve registrant data:

3. Describe and substantiate your success rate for obtaining registrant data; also, enumerate the reason why registrant information is not secured:

4. Describe your procedures to edit and utilize the registrant data provided:

5. Describe what happens to registration records when no data is returned from the motor vehicle agency:
